See attached.

The key issues I'd like to understand from our meeting with Karen are:

Are we prepared to give PP a deadline to sign an AOC, and if no AOC, then are we prepared to issue AO?

To what extent is she comfortable with pursuing nitrate PRPs under a possible 1431?

I'm NOT (repeat NOT in all caps) suggesting that we will necessarily want to drive our discussion with PP to address the above key topics, BUT, I think we definitely need to understand the "boundaries" of the issues so we will be prepared to discuss things that might come up in our meeting (and to be able to craft a broad strategy).
